

TESTIMONIALS

“JD Matthews’ integrity and commitment to compliance issues means that I never spend a single second questioning if my billing and coding practices are appropriate or if I am getting maximum reimbursement.”

- Dr. Kimberly H. Salata, MD

What can we do for you?

ABOUT US

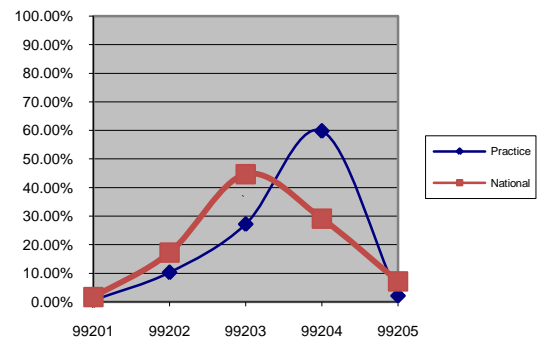

At JD Matthews & Associates, LLC, our approach to business is simple; to provide top-notch services in a professional, efficient and compliant manner that allows our clients to know that customer satisfaction is our top priority. Providing you with a complete business solution to include:

- Practice Management Software
- Complete Claims Posting/Processing
- Reimbursement /Claim Denial Management
- Patient Statement Billing
- Accounts Receivable Management Reporting
- Certified Professional Coders, Auditors and Healthcare Compliance Professionals
- E/M Staff Trainer
- On Staff IT Professionals

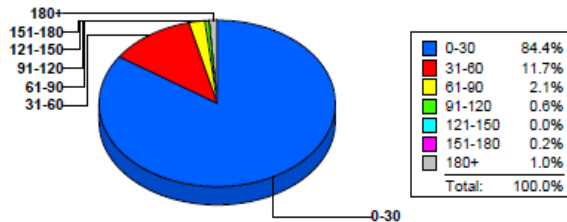

ANALYZING DATA- IT'S WHAT WE DO

Our staff of Certified Professional Coders stay current on code changes (code modifications, deletions and additions) for all specialties and communicate to the practice the financial impact of the changes.

We trend data to compare similar specialty client trends with local and national statistics. We continually educate providers on coding rules and regulations.

Average DAYS IN A/R 14 Provider Practice

DOS to Pymt Date

“JD Matthews has done an outstanding job for our practice including reducing our days in A/R below our industry’s benchmark.”

- Jeff Behneke, Practice Administrator,
Winchester Cardiology and Vascular Medicine, PC

STREAMLINING WORKFLOW

We partner with the practice to provide solutions for efficient workflow:

- Appointment Process
- Check-in Check Out Analysis
- Charge Capture Process
- Superbill Creation and Update
- Provider Productivity

We provide patient receivables management eliminating the endless stream of unpaid/unattended patient due monies. We work with the practice to develop and enforce:

- Practice Financial Policies
- No Show Appointments
- Recall Notices

All of this and more
